CAREER OBJECTIVE

Postgraduate student in Computer Applications with hands-on project experience in React.js, HTML/CSS, REST API integration, MySQL, and UI/UX design using Figma. Interested in building responsive, user-focused web applications and contributing to frontend and backend development teams.

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, Responsive Web Design

Backend & APIs: Spring Boot, REST APIs

Database: MySQL, Relational Database Design, SQL

UI/UX: Figma, Wireframing, Prototyping, High-Fidelity Mockups, Design Systems

Programming: Java, Python

Analytics Tools: Excel, Tableau, Data Visualization

Other: Windows

EDUCATION

St. Agnes Autonomous College, Mangalore — MCA | Dec 2024 – Oct 2026

PES Institute of Advanced Management and Studies, Shivamogga — BCA | Nov 2021 – Sept 2024

Mahesh PU College, Udupi — PUC | Jun 2019 – Jul 2021

PROJECTS

- **The Mestri – Location-Based Service Marketplace**

Developed a full-stack web application using React.js, Spring Boot, and MySQL to connect customers with nearby skilled service providers.

Built and integrated REST APIs between the frontend and backend services.

Designed relational databases and optimized SQL queries for efficient data management and application performance.

Focused on user-facing functionality and structured data handling across the application.

- **Digital Bookstore System**

Developed a web-based bookstore system to manage book inventory, users, and transactions.

Implemented search and ordering functionality and integrated the application with a database.

Focused on improving the user experience through organized application workflows.

- **Delhi Air Pollution Analysis**

Analyzed air-quality data using Python and Pandas and created visualizations to identify pollution patterns and seasonal trends.

- **Festival Celebration and Spending Analysis**

Analyzed survey data collected through Google Forms using data cleaning, analysis, and visualization techniques.

UI DESIGNER INTERN

- Designed intuitive and user-centric web and mobile interfaces using Figma, following UI/UX best practices.
- Created wireframes, high-fidelity mockups, and interactive prototypes based on business and user requirements.
- Collaborated with cross-functional teams to translate design concepts into responsive, developer-ready interfaces.
- Contributed to design reviews, maintained design consistency, and improved the overall user experience.
- Tools and practices: Figma, HTML5, CSS3, Responsive Web Design, Wireframing, Prototyping, UI/UX Design Principles, Design Systems.

ADDITIONAL STRENGTHS

Active Learning | Adaptability | Positive Attitude | Teamwork | Analytical Thinking | Problem Solving
